

# I LIT THE SUN

I Lit the Sun is a continuation of musical endeavors led by William Lilleås. The band's members have previously contributed to projects such as Iscariot, Anno Miseria and Phantom I.

I Lit the Sun was founded in its current form in 2013, and started adapting earlier material to the new format, as well as writing new material.

I Lit the Sun's music can best be described as melodic hard rock with a wide spectrum of musical influences.

Entirely self financed and self-produced, the debut album Horizon was released in the winter of 2015 on the band's own label.
